

The Industry Conference Resource

Powered By:

Rebound, Recover, and Reconnect

It seems like every day the COVID-19 crisis takes on a new description. The outlook looks promising, but there is still some uncertainty as it relates to the timing. As we advance to the recovery stage of this episode, we want to make sure you have some resources identified that support your needs for information and community.

We have added a section to this newsletter that will highlight some virtual opportunities for you to consider as you identify the next steps for your company or organization. Stay diligent.

RESOURCE PARTNER

INTRODUCING THE PSS SMART ASSET PROGRAM

PSS invites you to evaluate the use of RoadQuake Temporary Portable Rumble Strips (TPRS) in the advance of your truck-mounted attenuators, at no charge to you.

Using auditory and vibratory alerts, RoadQuake TPRS can improve the driver's attention to work zones but also your assets. RoadQuake TPRS reduces potential injuries, project delays, and capital investment in new equipment.
